CONTENTS
(continued from front cover)

New Myrmoteras ants (Hymenoptera: Formicidae) from the southeastern Philippines. Herbert Zettel and Daniela Magdalena Sorger ................................................................. 61

Four new species of Trurlia Jaloszyński from Sumatra and Borneo (Coleoptera: Staphylinidae: Scydmaeninae). P. Jaloszyński .......................................................... 69

Brevisbora cheeya, a new species of cyprinid fish from Malay Peninsula and Sumatra. Te-Yu Liao and Heok Hui Tan ............................................................. 77

CONSERVATION AND ECOLOGY

Introduction of an Indochinese freshwater crab Sayamia germaini (Crustacea: Brachyura: Gecarcinucidae) to Taiwan: morphological and molecular evidence. Hsi-Te Shih, Jhy-Yun Shy, Tohru Naruse, Ho-Tian Hung, Darren C. J. Yeo and Peter K. L. Ng ........................................... 83

Distribution of small cetaceans in the nearshore waters of Sarawak, East Malaysia. Gianna Minton, Cindy Peter and Andrew Alek Tuen ..................................................... 91

Preliminary report on mitochondrial DNA variation in Macaca fascicularis from Singapore. Michael A. Schillaci, Sandy Saravia, Benjamin P. Y.-H. Lee and Carney Matheson ...................................................................................... 101

Natural-licks used by orangutans and conservation of their habitats in bornean tropical production forest. Hisashi Matsubayashi, Nobuhiko Wakamatsu, Etsuko Nakazono, Masaaki Takay, Norreem Majalap, Peter Lagan and Jun Rafiah Abd. Sukor ........................................................................................................ 109

The Raffles Bulletin of Zoology
An International Journal of Southeast Asian Zoology

CONTENTS

Editorial ................................................................................................................................. i

TAXONOMY AND SYSTEMATICS

The composition, diversity and community dynamics of limnetic zooplankton in a tropical caldera lake (Lake Taal, Philippines). Rey Donne S. Papa and Macrina T. Zafaralla ........................................................................................................ 1

The Acropora humilis group (Scleractinia) of the Snellius Expedition (1929-30). Sancia E.T. van der Meij and Rémond R. Visser .......................................................................................................................................................... 9

New species of Pheretima, Pithemera, and Polypheretima (Cittellata: Megascolecidae) from Kalbaryo, Luzon Island, Philippines. Yong Hong and Samuel W. James ........................................................................................................ 19

Large mangrove-dwelling Elysia species in Asia, with descriptions of two new species (Gastropoda: Opistobranchia: Sacoglossa). Cornelis (Kees) Swennen ........................................................................................................ 29

A new subspecies of Amphidromus (Amphidromus) atricollis from Singapore (Mollusca: Gastropoda: Camaenidae). Siong Kiat Tan, Sow Yan Chan and Somsak Pansa ........................................................................................................ 39

Evidence of the earliest freshwater decapod fossil from Southeast Asia (Crustacea: Decapoda: Brachyura). Sebastian Klaus, Madelaine Böhme, Simon Schneider, Jérôme Prieto and Boungsavong Phetsomphou ........................................................................ 47

Guide to the aquatic heteropods of Singapore and Peninsular Malaysia. 6. Mesoveliidae, with description of a new Nerivelia species from Singapore. Yang Chang Man and Dennis H. Murphy ........................................................................................................ 53

(continues on back cover)
INSTRUCTIONS TO AUTHORS

Submission of manuscripts. – All manuscripts are to be submitted via email to the Managing Editor, Dr. Tan Heok Hui (heokhui@nus.edu.sg). Hard copy manuscript submissions will not be considered. Where possible, authors are encouraged to deposit representative material from papers published in the RBZ with the Zoological Reference Collection (ZRC) of the Raffles Museum of Biodiversity Research (RMBR), National University of Singapore (NUS). A recommended list of up to three potential reviewers would be greatly appreciated.

Presentation. – Documents produced with Microsoft® Word (.doc) are preferred. Text must be double-spaced throughout. The title page should contain the full title of the paper, the author’s name and professional affiliation, email address and a short running title of not more than 35 characters. All numbers (except in Material section in taxonomic papers) less than 10 should be spelt in full.Italicize all scientific names. All scientific names used or proposed must be in accordance with the Fourth Edition of the International Commission of Zoological Nomenclature (1999). Telegraphic style is recommended for descriptions, diagnoses and keys in taxonomic papers. The holotype must be clearly designated and depositories for all type specimens must be clearly stated, including catalogue numbers if possible. The origins of all new names (Etymology) must be briefly explained. For new genera, the gender must be stated. Descriptions of new taxa by one author in a paper under another’s name are strongly discouraged (e.g. Lim, in Tan & Ong, 1986). Synonyms must be cited in the short form (taxon, author, year, page), with full references at the end of the paper in the LITERATURE CITED. Please refer to the most recent issue of the Journal for the detailed format.

Digital Images. – For initial submission, greyscale, colour photographic images or line drawings are to be submitted in JPEG format (.jpg) embedded in Microsoft® Word documents. Authors should arrange their line drawings in such a way as to fit into an A4-sized page (210 × 297 mm).

Review. – All manuscripts will be sent to an Associate Editor who will have them reviewed by two referees. The Associate Editor decides on provisional acceptance or rejection based on comments submitted by the referees. After acceptance, the manuscript must be revised and emailed to the Associate Editor for verification.

Abstract. – All articles should be accompanied by an abstract of not more than 300 words, clearly stating the results and conclusions of the paper. Key words (four to eight words) should be listed following the abstract.

Literature Cited. – All references cited in the text, including taxonomic authorities for any scientific names, should be included in the LITERATURE CITED section. References are to be cited in the text by the author’s family name and surname and year of publication, e.g. (Chan, 1985). For two authors, both names should be cited, e.g. (Polhemus & Polhemus, 1988). For three or more authors, cite only the first name followed by “et al.”, e.g. (Harrison et al., 1950). Citations are listed at the end of the manuscript in alphabetical and chronological order. Journal references should include year of publication, title of paper, full title of journal, volume and issue number, and page numbers. Book references should include author’s family name and initials, year of publication, title of book chapter, editor (if any), title of book, publisher, city of publication and the page numbers of the chapter or the book. For example:

Tables. – All tables must have their own legends and be self-explanatory. Tables must be typed separately with double spacing, and formatted with no vertical lines and minimal horizontal lines.

Page and Colour Page Charges. – There are no page charges. Authors with papers longer than 20 pages are advised to write to the Managing Editor before submission. There will be a charge of $S200 for each colour plate.

Proofs and Reprints. – Proofs in PDF format are emailed to authors for correction and approval, together with the copyright transfer and reprint order forms. Reprint orders are taken with returned proofs. Authors will receive an electronic reprint in PDF format for personal use (note that copyright remains with the publisher). Authors may purchase hard copy reprints at a cost of $S1.00 per page without colour plates, and $S2.00 for a page with colour plates.

Detailed instructions to authors are available at http://rmbr.nus.edu.sg/rbz/author.htm
