The Raffles Bulletin of Zoology | R B Z | lkcnhm.nus.edu.sg/publications/raffles-bulletin-of-zoology/rbz/

The **Raffles Bulletin of Zoology** (RBZ) is an online, peer-reviewed journal which publishes high quality papers in Taxonomy, Systematics, Ecology, and Conservation Biology of animals from Southeast Asia and its adjacent areas. The Journal aims to build up quality information on the “animal diversity” of Southeast Asia in particular. Papers from outside the stated geographic range that deal with material deposited in the Zoological Reference Collection (ZRC) of the Lee Kong Chian Natural History Museum, National University of Singapore (NUS) will also be published. Both descriptive and experimental papers will be considered. Single species descriptions and ecosystem studies will be considered for publication. Papers outside the stated policy will be accepted at the discretion of the Editors/Editorial Board.

PUBLICATION DETAILS

The **Raffles Bulletin of Zoology** will consist of a single volume each year, continuing the sequence of its two predecessors, **Bulletin of the Raffles Museum** (1928–1960) and **Bulletin of the National Museum of Singapore** (1961–1970). A separately numbered supplement series will be published as and when manuscripts and funding permit. In order to satisfy the International Code of Zoological Nomenclature (ICZN, Fourth Edition, International Trust of Zoological Nomenclature, London; amendment to Article 8, Zootaxa, 3450: 1–7, ZooKeys, 219: 1–10), the Journal will register the names in ZooBank before publication and the LSIDs will be indicated on the first page of each paper. The Journal will be archived in LOCKSS so that all new names (and nomenclatural acts) published in the electronic-only Journal will be considered published and available.

INSTRUCTIONS TO AUTHORS

Submission of manuscripts. All manuscripts are to be submitted via email to RBZ@nus.edu.sg, with a list of at least two potential reviewers. Where possible, authors are encouraged to deposit representative material from papers published in the RBZ with the Zoological Reference Collection (ZRC) of the Lee Kong Chian Natural History Museum (LKCNHM), National University of Singapore.

Presentation. Documents produced with Microsoft® Word (.doc) are preferred. Text must be double-spaced throughout. The title page should contain the full title, author’s name, professional affiliation and email address, and a short running title of not more than 35 characters. All articles should be accompanied by an abstract of not more than 300 words and 4–8 key words. All scientific names used or proposed must be in accordance with the 4th Edition of the International Commission of Zoological Nomenclature (1999). Telegraphic style is recommended for descriptions, diagnoses, and keys in taxonomic papers. The holotype must be clearly designated and depositories for all type specimens must be clearly stated, including catalogue numbers if possible. Descriptions of new taxa by one author in a paper under another’s name are strongly discouraged (e.g., Lim, in Tan & Ong, 1986). Synonymies must be cited in the short form (taxon, author, year, page), with full references at the end of the paper.

Literature cited. All references cited in the text, including taxonomic authorities for any scientific names, should be included in the LITERATURE CITED section. References are to be cited in the text by the author’s family name or surname and year of publication, e.g., (King et al., 1975; Nakasone & Agena, 1984; Murphy, 1990). Citations are listed at the end of the manuscript in alphabetical and chronological order. Journal references should include year of publication, title of paper, **full title of journal**, volume number, and page numbers. Book references should include year of publication, title of book chapter, editor (if any), title of book, publisher, city of publication, and the page numbers of the chapter or the book.

Review. All manuscripts will be sent to an Associate Editor who will have them reviewed by two referees. The Associate Editor decides on provisional acceptance or rejection based on comments submitted by the referees. After acceptance, the manuscript must be revised and emailed to the Associate Editor for verification.

Page and colour page charges. There are no page or colour page charges. Authors with papers longer than 20 pages are advised to write to the Managing Editor before submission.

Proofs. Proofs in PDF format are emailed to authors for correction and approval, together with the copyright transfer form. Authors will receive an electronic reprint in PDF format for personal use (note that copyright remains with the publisher).
