

CORRIGENDUM

Soo, O. Y. M. & L. H. S. Lim, 2012. Eight new species of *Ligophorus* Euzet & Suriano, 1977 (Monogenea: Ancyrocephalidae) from mugilids off Peninsular Malaysia. *Raffles Bulletin of Zoology*, **60**(2): 241–264.

Pp. 243–244, Table 1. An error occurred resulting in an incomplete Table 1. The full table is provided below.

P. 254, Fig. 8i. There is a minor error in the illustration of 8i which gives the false impression that the intestinal caeca overlap. In addition, there is an error in the caption. The composite illustration of the worm is in the ventral view, instead of dorsal. The replacement for Fig. 8 and its caption is provided here.

Table 1. List of new and known *Ligophorus* species with description and re-description information only.
