Corrigendum to Ali N-F, Rajamani L, Abd Rahman A, Porter L, Sim Y-K & Fadzly N (2023) Habitat use and behaviour of the Irrawaddy dolphin, *Orcaella brevirostris* and the Indo-Pacific finless porpoise, *Neophocaena phocaenoides* off the west coast of Penang Island, Malaysia. Raffles Bulletin of Zoology, 71: 169–194.

P. 178. There is an error in the 5th paragraph on the page. The corrected paragraph is given below:

We also observed avoidance behaviour on several occasions for both Irrawaddy dolphins and finless porpoises. Irrawaddy dolphins exhibited avoidance behaviour thirteen times (25.0%) and finless porpoises nine times (25.7%). They displayed this behaviour when there were other fishing boats surrounding them, although some animals also displayed avoidance behaviour when only our research boat was present.
